Please tell us what the CERA program has meant to you
CERA gives me validation as to how prestigious and important my job is as an Election Administrator. Maybe
people will now realize we work more than a couple of days per year, and that this is a real profession. I
have thoroughly enjoyed meeting people from other states and discovering how they administer elections. It
was a pleasure to meet all the professors, and receive the knowledge they shared with us. I would highly
recommend other Election Administrators to be a part of the CERA program. I would like to thank everyone
who made this possible.
