Abstract and Narrative

Project Abstract (The Problem): Briefly describe project's purpose, identify target population, and discuss program components which address the identified problem. Include local statistics to substantiate the need.

The purpose of this project is to enhance the safety of victims of domestic violence crimes as well as strengthening the prosecution effort. This will be done through several areas. Offenders that have been charged with domestic violence crimes will be screened for electronic monitoring to track their movements while on pre-trial release. Inclusion and exclusion zones will be established and curfews set to control the defendant's access to the victim. The domestic violence unit will also periodically monitor jail calls from offenders to the victims, looking for threats or intimidation. Lastly, there will be a coordinated effort between the domestic violence unit and patrol units to decrease the amount of time it takes to complete service of a domestic violence protective order on a defendant.

Project Narrative (Operation): Include a description of how grant funded positions are integral to the project and how contractual, travel, operating, and equipment expenses will support the project. Discuss how you will collaborate with other agencies. Focus on the project – do not give agency history, do not repeat abstract.

One full-time Domestic Violence Investigator will review domestic violence and sexual assault cases on a daily basis to establish need for follow-up investigation; work closely with domestic violence and sexual assault advocates as well as DSS and the DA's office to see the cases and assist the victim through prosecution; screen offenders for electronic monitoring; carry an investigative caseload; and monitor jail calls for violations of state law. The DV Supervisor will supervise the overall operation of the project and provide support to the project staff. All project staff will provide training on various issues to the rest of the office. The travel budget would provide for one (1) investigator to attend specialized training in the field of domestic violence and victim accountability. This training generally is provided on a national level. The travel funds would provide for air fare, course registration, and lodging. The equipment budget will support the full-time, Domestic Violence Investigator in applying GPS technology to offenders during their pretrial period. The technology involved requires a 3rd party fee for both active monitoring and device insurance. The additional hardware will provide the ability for the officer to set up an offender for GPS tracking and actively monitor the offender during their period of supervision.

Project Narrative Summary: Please provide additional information about your project application.

This project will increase victim safety and offender accountability. The DV officer, as part of the CCSO's Family Violence Unit, will provide follow-up investigations on DV calls, reviewing all calls, identifying further charges to be filed and victim safety issues and refer victims to FVRC. The officer will work with the unit to implement a plan for monitoring of calls made by DV offenders in the county jail. These calls will be reviewed to identify crimes, such as witness intimidation and case tampering. These cases will be charged and referred to the DA's Office for prosecution. This project will further continue our electronic monitoring (EM), which has already been active in Chatham County. An advocate will work with victims to develop safety plans and to help coordinate their cases through the system. While our numbers of offenders are small, it is important to have this system in place when needed.

Project Timeline of Activities:

1st Quarter- Hire and assign project staff and make necessary adjustments to existing staff, order monitoring equipment, review existing policies and procedures, involvement with multi-agency task force to address local domestic violence issues. 2nd Quarter- Provide training and familiarization with the project to other agencies within the county, judges and the District Attorney's Office, perform semi-annual analysis of program statistics for reasons of comparison to past reports, send investigator to Domestic Violence related training, involvement with multi-agency task force to address local domestic violence issues. 3rd Quarter- Attempt to increase the number of cases identified for GPS monitoring and phone monitoring, continue inter-agency training and familiarization with the project, utilize advocate in direct victim contact, involvement with multi-agency task force. 4th Quarter- Perform semi-annual analysis of program statistics for reasons of comparison to past reports, involvement with multi-agency task force to address local domestic violence issues, re-evaluate policies and procedures for project and make adjustments where needed. 2nd Year- Continue to participate in Criminal Justice Task Force and increase community participation, continue training on DV issues with other officers, continue to increase the number defendants monitored, continue semi-annual reports, move program towards being county funded.

Project Goals

<p>Goal 1 To improve victim safety and law enforcement response to domestic violence through enhanced investigation, monitoring of jail phone calls, direct victim contact through the use of electronic monitoring of offenders on pretrial release.</p>	<p>Goal 2</p>

Project Objectives

1. Project Objective:
By September 30 2017, we will increase the number of witness intimidation charges filed with the district attorney's office in domestic violence cases to 20 over a baseline of 3 in 2014.

Performance Measure:
We will monitor charges files in domestic violence cases, currently tracked through agency software.

Evaluation Method:
We will review the charges filed and compare to baseline.

2. Project Objective:
By September 30 2017, we will decrease the number of domestic violence cases dropped due to lack of victim participation by 5% by increasing direct contact with the victim through the use of a domestic violence advocate.

Performance Measure:

We will track the number of cases dropped by the DA's office and the reasons for dropping the charges. These will be kept in a database with the Chatham County Sheriff's Office.

Evaluation Method:

We will compare the number of cases dropped on the database with the 2014 baseline.

3. Project Objective:

By September 30 2017, we will increase charges for violations of domestic violence protection orders by 10% over baseline.

Performance Measure:

Charges filed as the result of violation of domestic violence protection orders will be tracked through sheriff's office software.

Evaluation Method:

Charges filed during the grant period will be compared to 2014 baseline.

Project Sustainability Planning

Describe your formal, working sustainability plan for the project and how it will result in permanent operational funding (not GCC funding) once this grant ends. If this program proves to be successful, at the end of the grant period the Chatham County Sheriff's Office will submit it to the County Commissioners for continued funding.
