Integrated Processes

Fund the Bold Goal initiative at a high level.

Single process vs dual process frees up agency resources to be directed at community impact.

Transition some agencies with lengthy historical excellence and applicability to annual funding vs. competitive process.

Those annual funded agencies work directly with county department most closely aligned with their mission.

Moving Forward

- Integrating the dual processes is possible.
- Focus and expertise of a professional organization like United Way has real benefits.

Focused vs. Broad approach

Narrowly focusing on poverty with goal to eliminate it vs. casting funds in a broad pattern to mitigate poverty

Initial geographic focus narrow

To widen as the program becomes polished and sustainable

Single process

Easier for applying agencies
