STATEMENT OF SOLE SOURCE
DLX ENTERPRISES, LLC “dba” DEPLOYED LOGIX
520 S. BERTELSEN
EUGENE, OR 97402

To: Whom it may concern

From: JJ Urhausen, President of Deployed Logix®

This letter is to confirm that DLX Enterprises, LLC “dba” Deployed Logix® is the EXCLUSIVE owner, manufacturer, designer, and sole-source provider of products protected by intellectual property, patent protection, registered trademarks, trade secrets and copyright materials from the Deployed Logix product line.

EXCLUSIVE RIGHTS:

Deployed Logix is the owner of patents, registered trademarks, and copyright material of the ASAP® and X-Series® shelter lines and other specific products unique to the Deployed Logix product line that are exclusively offered by Deployed Logix. Said products possess functions and capabilities that are critical to mission requirements. See list below of patents, patent pending, trademarks, and copyright material and products.

EXCLUSIVE DESIGN:

The Deployed Logix product line utilizes unique designs, product molds, intellectual property and trade secret technology that are exclusive to Deployed Logix. Said designs are unique to Deployed Logix and offer a unique functionality and capability for mission requirements and success.

- **ASAP® Rapid Shelter:** The patented ASAP® shelter line is the only rapidly deployable shelter of its size and speed in the market place that only takes two (2) people to setup in less than 5-minutes (US Patent # 10309093). The ASAP® brand is a registered trademark and all manuals and training videos are protected by copyright.
- **ATLAS® Anchor:** The patented ATLAS® Anchor is a non-impact anchoring device that can be used with water, sand, gravel, etc. and is compatible with any shelter in the industry (US Patent # 9644391). The ATLAS® Anchor is owned, designed and exclusive from Deployed Logix. The ATLAS® brand is a registered trademark.
- **DLX Hard Cases:** The hard cases for the Deployed Logix product line are patent protected (US Patent # 7537119). The hard cases used for the ASAP® and X-Series® shelter lines are unique to only Deployed Logix.
- **X-Series® Shelter:** The X-Series shelter line is in the process for patent pending.

ENHANCEMENT OF EXISTING EQUIPMENT:

Deployed Logix has several products that are unique to its product line enhances the functionality and capability of mission requirements.

- **ASAP® Decontamination Shower:** Deployed Logix offers decontamination shower products that allow users to adapt the capability and function of the ASAP® or X-Series® shelters into a decontamination shower at a moment's notice. Decontamination showers can be purchased at the same time of original purchase or as an optional upgrade with no special tools needed at a future date.
- **ASAP® Hygiene Shower:** Deployed Logix offers hygiene shower products that allow users to adapt the capability and function of the ASAP® or X-Series® shelters into a decontamination shower at a moment's notice. Hygiene showers can be purchased at the same time of original purchase or as an optional upgrade with no special tools needed at a future date.
- **Shelter Connectors:** Deployed Logix owns designs for connecting the ASAP shelters, X-Series shelters, and other competitor shelters to either shelter line. The shelter connectors, ASAP-HUB, and X-HUB allow the capacity to connect multiple shelters into a larger complex at a moment's notice. The shelter connectors, ASAP-HUB, and X-HUB can be purchased at the same time of original purchase or as an optional upgrade with no special tools needed at a future date.
- **ASAP® Rigid Door:** Deployed Logix offers an accessory upgrade/enhancement product called the ASAP® Rigid Door that allows user to adapt the door entry of ASAP® Rapid Shelter and is interchangeable with the X-Series® Shelter line. The ASAP Rigid Door can be purchased at the same time of original purchase or as an optional upgrade with no special tools needed at a future date.
- **Climate Control Solutions:** Insulation liners, air plenums, HVAC and heaters that have been designed to integrate directly with the ASAP and X-Series shelter lines.
- **Water Logix Solutions:** Water filtration, distribution and containment solutions designed to compliment and integrate with the ASAP and X-Series shelter lines to support decontamination use, hygiene showers, and sinks.
- **Power Logix® Solutions:** Power solutions for delivery of power generation, distribution and delivery of power to the ASAP and X-Series shelter lines.

REPLACEMENT OF EQUIPMENT AND REPAIR PARTS:

When needed upon request Deployed Logix offers replacement parts and equipment that may or may not be under warranty. Regardless of warranty coverage many key replacement parts are exclusive to Deployed Logix and protected by patent, patent pending, trademarks, copyright or intellectual property.
