

ConnectWell Digital Health & Wellness Database and Programs for Libraries

Proposal Description: ConnectWell's Digital Health & Wellness Database and accompanying Programs will be made available to Library and their card holders. ConnectWell's full suite of leading-edge and science-based digital health and wellness content supports health literacy and enables people to engage in their total health and well-being. The ConnectWell database will be seamlessly updated throughout the year when content is added or removed, and when articles are updated to include new standards of care guidelines.

Deliverable: A unique digital link to the Website will be made available to Library:

- To place ConnectWell on internal Library devices, making it available to anyone coming to the Library including pop-up libraries, telehealth kiosks, bookmobiles, and other library programming
- To place ConnectWell on Library website where Digital Resources are made available for library card holders to access 24/7 through library card authentication

Accompanying Support and Programming includes: graphic icon to use on Library system and wording to describe ConnectWell's Digital Health & Wellness Database for Library patrons and card holders; instructions on integration; a launch package to support your efforts to communicate this new service to your library community; comprehensive staff training; monthly newsletter for library staff, Monthly Health Focus that provides "ready-made" health events; a package detailing turnkey programs that enable library staff to facilitate onsite Wellness Challenges and include moderator guides, wellness exhibits, and scripted emails; on-going support throughout the year.
