I am a USMC veteran with a vast amount of personal & professional experience in various climates ranging from the tropics of Hawai'i & Haiti to the arid deserts of Egypt & Kuwait, & all across the great state of North Carolina. Since 2015, I have been vocal in my advocacy for climate change initiatives that are both effective & essential to allow our communities to adapt to a rapidly changing climate pattern. I believe our county can continue to foster growth while maintaining our inherent symbiotic relationship with our natural environment. Some ways this can be accomplished are by requiring companies to offset their carbon footprint, holding massive corporations like Duke Energy accountable, & encouraging natural lawns & roadsides to enhance biodiversity as opposed to being chemically manicured, which kills biodiversity. I am deeply passionate & gravely concerned about this issue; therefore, I believe my voice & perspective would be an asset to the Climate Change Advisory Committee.
