

inDemand is not a lease program, but a lease alternative. Libraries purchase books, and can return them for credit through ThriftBooks and/or Better World Books. This would be like buying books regularly and selling them through ThriftBooks after weeding, except the money we would receive would be tied to inDemand rather than free to use at our discretion. It is the closest comparable product/service that Ingram offers. - AMG

# inDemand

Ingram's Lease Program

**Own your books** and easily manage initiatives from hold lists to weeding and much more with inDemand.
