Solution Differentiators

- ▶ **Concierge Security Team (CST)** – Trained, credentialed Security Experts assigned to your individual account focused on delivering actionable outcomes and consistently increases security posture
- ▶ **Broad Visibility** – Eliminate blind spots with complete visibility across endpoints, network and Office 365
- ▶ **24X7 Coverage** - eyes on glass coverage of your environment by trained, credentialed Security Experts
- ▶ **IR Retainer** included with MDR service. Allows you to get a SOW created when you need an IR engagement.
- ▶ **Pricing** – Simple, predictable pricing based on consistent inputs like users, servers and network egress points

Chatham County North Carolina Background

Chatham County NC has selected a partnership with Arctic Wolf to implement comprehensive network monitoring and vulnerability management across entire attack surface to elevate overall security posture and keep County operations safe.

Arctic Wolf's turn-key Security Operations Platform offers a different approach to augment existing security tools & solutions to help increase visibility and implement comprehensive (24x7x365) monitoring for all attack surfaces including network traffic, endpoints, Office 365, identity, and all other security tools deployed.

Arctic Wolf is offering the following to Chatham County North Carolina:

- Dedicated Concierge support for Chatham County and IT Team
- **24x7x365** monitoring with emergency response in 30-minutes or less
- Fully managed & cloud-hosted SIEM technology
- Real-time monitoring for Office365
- Managed containment for advanced threats on endpoints & servers
- Continuous (EVA/IVA/host-based) vulnerability & dark web scanning
- Monthly external and dark web scan
- Monthly account review with Concierge Security Team (CST) to review overall security posture

Arctic Wolf Summary of Services to Support Objectives

Arctic Wolf is proposing to become Chatham County's managed Security Partner and includes:

- Seamless onboarding requiring minimal work from IT team – heavily backed by Arctic Wolf's team of experts to onboard environment.
- Two Named Security Concierge team members responsible for the security outcomes of Chatham County with unlimited access.
- Arctic Wolf's industry leading Managed Detection and Response – covering network, endpoints, Office 365, identity, and existing security toolsets with 24x7x365 eyes on glass coverage.
- Arctic Wolf's Industry Leading Managed Risk to enable discover, benchmark and harden Chatham County's environment against risks across network, endpoints and cloud.

Predictable Licensing

Arctic Wolf offers simple, predictable pricing based on consistent inputs like users, servers and network egress points. Monitoring for an unlimited number of devices and log data/sources is included in the cost.
