Chatham County Risk and Needs Data

Chatham County Continuum of Services

Executive Summary

The Chatham County Juvenile Crime Prevention Council (JCPC), in fulfillment of the duties and responsibilities as set forth in the General Statutes of the State of North Carolina, has reviewed and updated and updated this County Plan for FY 2017-2018.

The JCPC has identifies the issues and factors which have an influence and impact upon delinquent youth, at-risk youth, and their families in Chatham County. Further, the JCPC has identified the strategies and services most likely to reduce/prevent delinquent behavior.

Priorities for funding: Through the risk and needs assessment and a resource assessment, the JCPC has determined that the following services are needed to reduce/prevent delinquency in Chatham County.

- 1. Interpersonal and experiential skill building and decision making and programs that address school behavior problems
- 2. Programs that address mental health needs including history or evidence of physical, sexual, or emotional abuse or neglect
- 3. Programs that address homes and families with marital or domestic discord and/or alcohol or substance abuse
- 4. Programs that address behavior problems at school that increase school suspensions and unexcused absences.

Monitoring and Evaluation: Each program funded in the past year by the JCPC has been monitored. The monitoring results and program outcome evaluations were considered in making funding allocation decisions. The JCPC continues to conduct implementation monitoring of its funded programs.

Funding Recommendations: Having published a Request for Proposals for these needed services for a minimum of thirty (30) days, the JCPC has screened the submitted proposals and has determined which proposals best meet the advertised needed services. As required by statute, the JCPC recommends allocation of the NC Department of Public Safety (NC DJJ) funds to the following programs in the amounts specified below for the upcoming fiscal year: (See JCPC Funding Allocations page):

1. Teen Court: \$20,800

2. Community Service and Restitution: \$48,000

3. Family Advocacy: \$36,000

4. El Futuro Clinical Programs: \$10,9445. Haven House/Wrenn House: \$6,537

6. Haven House/Psychological Assessments: \$5,763

The JCPC further recommends that the following amount be allocated from the NC DJJ funds for the administrative costs of the Council for fiscal year 17-18: \$15,500

Respectfully Submitted,

George Greger-Holt

Chair, Chatham County Juvenile Crime Prevention Council

Date: 5. 23.17

Summary Report Contents

- I. Risk Assessment
- II. Needs Assessment
- III. Existing Community Resources Assessment
- IV. Gaps and Barriers in the Community Continuum of Services
- V. Proposed Priority Services for Funding

Part I. Risk Assessment

The Risk and Needs Assessment Committee reviewed data gleaned from the Juvenile Risk Assessment instrument administered by Juvenile Court Counselors after juveniles are referred with a complaint alleging that a delinquent act has occurred and prior to adjudication of the juvenile. The Juvenile Risk Assessment is an instrument used to predict the likelihood of the juvenile being involved in future delinquent behavior. For some youth, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (noted by an asterisk), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Chatham County Risk Factor Observations from FY 2015-2016 data

There were 86 risk assessments completed during this timeframe. Of those, juveniles were low (66%) to medium risk (28%) and high (6%) for involvement in future delinquent behavior.

- 16% (as compared to 33% in FY 14-15) of those juveniles were under age 12. This decrease of youth under the age of 12 is worth noting due to those youths historically being involved in the juvenile justice system longer, tend to have more mental health issues and involved in more serious offenses.
- 38% (as compared to 44% in FY 14-15) of those juveniles had prior referrals to juvenile intake.
- 18% (as compared to 19% in FY 14-15) of those juveniles had a prior history of assaultive behavior without a weapon.
- 65% (as compared to 64% in FY 14-15) of those juveniles report no known substance use.
 - * NOTE: The members of the Risk and Needs Committee for Chatham County reports high use of marijuana among the youth though county indicators are not available.
- 87% (as compared to 88% in FY 14-15) of those juveniles had moderate to severe behavioral problems at school.
- 32% (as compared to 19% in FY 14-15) of those juveniles lack prosocial peers or sometimes associates with delinquent peers.

<u>Elevated Risk Concerns</u>: Behavioral problems at school; Lacks positive peer relationships; Prior involvement with Juvenile Justice System.

Part II. Needs Assessment

The Risk and Needs Assessment Committee also reviewed data gleaned from the Juvenile Needs Assessment instrument administered by Juvenile Court Counselors prior to court disposition of a juvenile. The Juvenile Needs Assessment is an instrument used to examine a youth's needs in the various domains of his life: The Individual Domain, The School Domain, The Peer Domain, and the Community Domain. This instrument was designed to detect service intervention needs as an aid in service planning. As with the Juvenile Risk Assessment, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (noted by an asterisk), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Chatham County Elevated Needs Observations from FY 2015-2016 data

There were 110 needs assessments completed during this timeframe. Of those, juveniles were low (64%) to medium risk (30%) and high (6%) needs for services/interventions to reduce the likelihood of repeat delinquency.

- 57% (as compared to 38% in FY 14-15) of those juveniles have some degree of peer relationship problems (rejected by peers, some association with delinquent peers, regularly associates with delinquent peers and 5%, gang association).
- 66% (as compared to 61% in FY 14-15) of those juveniles who were assessed have moderate to severe behavior problems at school.
- 61% (as compared to 69% in FY 14-15) of those juveniles report no substance abuse.

 * NOTE: The members of the Risk and Needs Committee indicate that marijuana use continues to be high among youth in the county. The members also have some concern there is an abuse of alcohol and some prescription drugs in the county among youth.
- 87% (as compared to 79% in FY 14-15) of those juveniles assessed have some level of mental health needs, including the need for further mental health assessment.
- 35% (as compared to 29% in FY 14-15) of those juveniles assessed come from families who have marginal supervision skills.
- 45% (as compared to 32% in FY 14-15) of those juveniles come from families with criminal history/on active court supervision or gang involved.

<u>Elevated Needs Concerns</u>: Peer Relationship Problems, Lack of positive peers, Alcohol/Substance Use/Abuse; Behavioral and Emotional Problems (Mental Health needs), Parents/Guardians with marginal to parenting skills, family members with records of a criminal history/on active court supervision or gang involved, and Behavioral Problems at school.

Part III. Existing Community Resources Assessment

- Family Counseling
- Community Service/Restitution Program
- Temporary Shelter Care
- El Futuro
- Psychological Assessments
- Wrenn House
- Tarheel Challenge
- Therapeutic Foster Care Services
- Level III Group Homes
- Job Corps
- Juvenile Court School Liaison
- Boys and Girls Clubs
- Hispanic Liaison Youth Group
- YMCA
- NC Mentor
- Center for Behavioral Health Care
- Carolina Outreach
- 4-H Cooperative Extension
- Eckerd Residential (Males)
- Craven Transitional Living Program (Males) available to all counties statewide
- North Hills Transitional Living Program (Females) available to all counties statewide
- WestCare Residential (Girls) available to all counties statewide
- Dillon Crisis and Assessment Center available to central and eastern counties
- Chatham County Recreation Services
- Boy Scouts
- Girl Scouts

Part IV. Gaps and Barriers in the Community Continuum of Services

- Transportation is a major problem for many families.
- Families typically have few extra dollars to pay for services or extracurricular activities.
- There are a limited number of private providers for mental health services for youth within the county but services can still be accessed.
- Substance abuse services (education, prevention, treatment and assessments) for adolescents are difficult to access.
- Limited community alternatives to suspension for the high school and middle school.
- Spanish speaking providers for youth/family programming.
- Juvenile Structured Day programming for short-term suspended youth.
- Clinical Day Treatment programs are a need in the county.
- Substance Abuse Treatment, Assessment and Residential Treatment programming is a need.
- Sex Offender Treatment and Assessment programming is needed.

Part V. Proposed Priority Services for Funding

The committee compared the services needed to address the elevated Juvenile Risk Factors and Juvenile Needs with services currently available in the community. Services which are currently available in the community and sufficient to meet the needs of court involved youth or those youth most at risk for court involvement are not considered as a priority for JCPC funding.

The Chatham County Risk and Needs Assessment Committee recommends to the JCPC for the following services, in ranked order, be approved as the funding priorities for FY 2017-2018:

<u>Community Service/Restitution</u>: Provides opportunities for juvenile offender between the ages of 10 and 17, to be accountable for their actions to the community and/or victim(s) through forms of payments or community service work that earns money to repay the victim(s).

<u>Family Advocacy</u>: Works with adjudicated, intake diverted and & at risk; youth with mental health and substance abuse concerns to reduce recidivism and improve their ability to live healthy and productive lives. Program assists youth to reduce their problem behaviors by teaching them accountability and awareness of the consequences of their behaviors along with assisting parents with parenting skills connecting with services needed by their children.

<u>Teen Court</u>: An alternative to court program for middle and high school students based upon the principals of Restorative Justice. First time offenders are tried and sentenced by a jury of their peers. Fellow students take the roles of defense attorney, prosecutor, clerk of court, bailiff, or juror. Local attorneys serve as Teen Court judges. Offenders are sentenced to complete community service hours, write letters of apology, attend seminars and perform jury duties on future Teen Court cases.

El Futuro Clinical Program: Offers counseling for at-risk and/or delinquent Latino youth, ages 6-17 while providing support for parents. At-risk and/or delinquent youth will be linked with a caring, bilingual counselor to help them improve behavior (misbehavior at school, delinquency, substance use, gang involvement), life skills, and school performance using assessment of presenting symptoms / behaviors and individualized treatment planning for individual and family counseling.

<u>Psychological Assessments</u>: Referrals from juvenile court for youth recommended to receive psychological assessments to assist with treatment/programming needs. Program works with referred youth and his/her family, the assigned court counselor and contracted psychologist to ensure the successful completion of the psychological assessment.

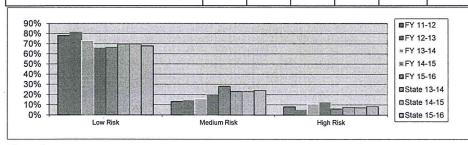

Wrenn House: A crisis shelter designed to provide a safe environment for runaway, homeless and in-crisis youth. It is open 24 hours/day, 365 days/year. Services are for youth ages 10-17. By offering temporary shelter, it eliminates the need for illegal means of support by homeless and runaway youth and therefore reduces the rate of juvenile crime. It also serves as an alternative to detention. Services are provided within therapeutic environment while promoting individuality and empowerment.

FY 17-18 Chatham County Program Descriptions

<u>Community Service/Restitution</u>: Provides opportunities for juvenile offender between the ages of 10 and 17, to be accountable for their actions to the community and/or victim(s) through forms of payments or community service work that earns money to repay the victim(s).

Family Advocacy: Works with adjudicated, intake diverted and & at risk; youth with mental health and substance abuse concerns to reduce recidivism and improve their ability to live healthy and productive lives. The FA assists youth to reduce their problem behaviors by teaching them accountability and awareness of the consequences of their behaviors. The FA assists parents with parenting skills connecting with services needed by their children.

Teen Court: An alternative to court program for middle and high school students based upon the principals of Restorative Justice. First time offenders are tried and sentenced by a jury of their peers. Fellow students take the roles of defense attorney, prosecutor, clerk of court, bailiff, or juror. Local attorneys serve as Teen Court judges. Offenders are sentenced to complete community service hours, write letters of apology, attend seminars and perform jury duties on future Teen Court cases.

El Futuro Chatham County Clinical Program: Offers counseling for at-risk and/or delinquent Latino youth, ages 6-17 while providing support for parents. At-risk and/or delinquent youth will be linked with a caring, bilingual counselor to help them improve behavior (misbehavior at school, delinquency, substance use, gang involvement), life skills, and school performance using assessment of presenting symptoms / behaviors and individualized treatment planning for individual and family counseling.

Psychological Assessments: Receives referrals from Chatham County juvenile court for youth recommended to receive psychological assessments. Program works with referred youth and his/her family, the assigned court counselor and contracted psychologist to ensure the successful completion of the psychological assessment, keep all stakeholders informed of progress made from point of referral to point of assessment completion.

Wrenn House: A crisis shelter designed to provide a safe environment for runaway, homeless and in-crisis youth. It is open 24 hours/day, 365 days/year. Services are for youth ages 10-17. By offering temporary shelter, it eliminates the need for illegal means of support by homeless and runaway youth and therefore reduces the rate of juvenile crime. It also serves as an alternative to detention. Services are provided within therapeutic environment while promoting individuality and empowerment.
