Chatham County Risk and Needs Data

Chatham County Continuum of Services

# **Executive Summary**

The Chatham County Juvenile Crime Prevention Council (JCPC), in fulfillment of the duties and responsibilities as set forth in the General Statutes of the State of North Carolina, has reviewed and updated the County Plan.

The JCPC has identified the issues and factors which have an influence and impact upon delinquent youth, at-risk youth, and their families in Chatham County. Further, the JCPC has identified the strategies and services most likely to reduce/prevent delinquent behavior.

<u>Priorities for Funding:</u> Through a risk & needs assessment and a resource assessment, the JCPC has determined that the following services are needed to reduce/prevent delinquency in Chatham County.

- 1. Psychological Assessments
- 2. Counseling (Individual, Group, and Family)
- 3. Temporary Shelter Care
- 4. Restitution/Community Service
- 5. Teen Court
- 6. Interpersonal Skill Building
- 7. Parent/Family Skill Building (focusing on parenting classes)

Monitoring and Evaluation: Each program funded in the past year by the JCPC has been monitored. The monitoring results and program outcomes evaluations were considered in making funding allocation decisions. The JCPC continues to conduct implementation monitoring of its action plan and its funded programs on a quarterly basis. (Please see Attached Monitoring Reports)

<u>Funding Recommendations</u>: Having published a Request for Proposals for these needed services for a minimum of thirty (30) days, the JCPC has screened the submitted proposals and has determined which proposals best meet the advertised needed services. As required by statute, the JCPC recommends allocation of the NC Department of Juvenile Justice and Delinquency Prevention (NC DJJDP) Funds to the following Programs in the amounts specified below for the upcoming fiscal year: (See JCPC Funding Allocations page):

- 1. Teen Court: \$20,800
- 2. Community Service and Restitution: \$48,000
- 3. Family Advocacy: \$36,000
- 4. El Futuro Clinical Programs: \$10,944
- 5. Haven House/Wrenn House: \$6,537
- 6. Haven House/Psychological Assessments: \$5,763

(Please see attached program description pages)

The JCPC further recommends that the following amount be allocated from the NC DJJDP funds for the administrative costs of the Council for the upcoming fiscal year: \$15,500

Respectfully Submitted,

Renita Foxx

Chair, Chatham County Juvenile Crime Prevention Council

### Part I. Risk Assessment

The Risk and Needs Assessment Committee reviewed data gleaned from the Juvenile Risk Assessment instrument administered by Juvenile Court Counselors after juveniles are referred with a complaint alleging that a delinquent act has occurred and prior to adjudication of the juvenile. The Juvenile Risk Assessment is an instrument used to predict the likelihood of the juvenile being involved in future delinquent behavior. For some youth, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (noted by an asterisk), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

# Chatham County Risk Factor Observations from FY 2016-2017 data

1% of juveniles coming to the attention of Juvenile Services were at low risk (R1) for reoffending. Below the state average at 5%.

12% of juveniles coming to the attention of Juvenile Services were R2 of reoffending. Below the state average at 15%.

41% of juveniles coming to the attention of Juvenile Services were R3 of reoffending. Higher than the state average at 32%.

36% of juveniles coming to the attention of Juvenile Services were R4 of reoffending. Higher than the state average at 33%.

10% of juveniles coming to the attention of Juvenile Services were at high risk (R5) of reoffending. Below the state average at 15%.

NOTE: The assessment tool was renormed during this reporting period with Risk Levels defined as: R1=Risk Level 1 (0 points), R2=Risk Level 2 ()1-2 points), R3=Risk Level 3 (3-5 points), R4=Risk Level 4 (6-12 points) and R5=Risk Level 5(13+ points)

- 25% (as compared to 16% in FY 15-16) of juveniles were under age 12. This increase of youth under the age of 12 is worth noting due to those youths historically being involved in the juvenile justice system longer, tend to have more mental health issues and involved in more serious offenses.
- 47% (as compared to 38% in FY 15-16) of juveniles had prior referrals to juvenile intake.

- 22% (as compared to 24% in FY 15-16) of juveniles had prior Class 1-3 misdemeanor offenses as the most serious prior adjudication in 16-17. 4% (as compared to 3% in FY 15-16) of juveniles had prior class f-1 felonies or a-1 misdemeanors as the most serious prior adjudication.
- 20% (as compared to 18% in FY 15-16) of juveniles had a prior history of assaultive behavior without a weapon while 4% (compared to 3% in FY 15-16) of juveniles had a prior history of assaultive behavior with a weapon.
- 30% (as compared to 35% in FY 15-16) of juveniles some substance use with a need of further assessment/treatment needed.
  - \* NOTE: There is a likelihood of under-reporting in this category and the actual incidence may be higher than suggested by these figures.
- 77% (as compared to 87% in FY 15-16) of juveniles had moderate to severe behavioral problems at school.
- 37% (as compared to 50% in FY 15-16) of juveniles lack prosocial peers or sometimes associates with delinquent peers. With 8% (as compared to 13% in FY 15-16) of juveniles regularly associates with others involved in delinquent behavior and 2% (as compared to 3% in FY 15-16) is a gang member or associates with a gang.

<u>Elevated Risk Concerns</u>: Behavioral problems at school; Lacks positive peer relationships; Prior involvement with Juvenile Justice System; Youth under the age of 12.

### Part II. Needs Assessment

The Risk and Needs Assessment Committee also reviewed data gleaned from the Juvenile Needs Assessment instrument administered by Juvenile Court Counselors prior to court disposition of a juvenile. The Juvenile Needs Assessment is an instrument used to examine a youth's needs in the various domains of his life: The Individual Domain, The School Domain, The Peer Domain, and the Community Domain. This instrument was designed to detect service intervention needs as an aid in service planning. As with the Juvenile Risk Assessment, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (noted by an asterisk), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

### Chatham County Elevated Needs Observations from FY 2016-2017 data

64% (remaining the same as FY 15-16) of juveniles coming to the attention of Juvenile Services were at low risk of needs for services/interventions to reduce the likelihood of repeat delinquency.

33% (as compared to 30% in FY 15-16) of juveniles coming to the attention of Juvenile Services were at medium risk of needs for services/interventions to reduce the likelihood of repeat delinquency.

4% (as compared to 6% in FY 15-16) of juveniles coming to the attention of Juvenile Services were at high risk of needs for services/interventions to reduce the likelihood of repeat delinquency.

- 48% (as compared to 57% in FY 15-16) of juveniles have some degree of peer relationship problems (rejected by peers, some association with delinquent peers, regularly associates with delinquent peers and 2%, as compared to 5% in FY 15-16 of gang association).
- 78% (as compared to 66% in FY 15-16) of juveniles who were assessed have moderate to severe behavior problems at school.
- 30% (as compared to 39% in FY 15-16) of those juveniles report some substance while receiving an assessment/treatment.
  - \* NOTE: There is a likelihood of under-reporting in this category and the actual incidence may be higher than suggested by these figures.
- 36% (remaining the same in FY 15-16) of juveniles were victims of abuse but were receiving supportive services in 16-17; Chatham County higher than the state average of 23% in 16-17.
  - \* NOTE: There is a likelihood of under-reporting in this category and the actual incidence may be higher than suggested by these figures.
- 82% (as compared to 87% in FY 15-16) of juveniles assessed have some level of mental health needs, including the need for further mental health assessment. Chatham County higher than the state average of 72% in 16-17.
- 29% were experiencing domestic discord or violence in the home in 16-17 (as compared to 26% in FY 15-16). Chatham County higher than the state average at 26%.
- 37% (as compared to 35% in FY 15-16) of juveniles assessed come from families who have marginal to inadequate supervision skills.
- \*12% of family systems had indicators that suggest that there is alcohol or drug use in the family in 16-17 as compared to \*15% of the family systems in 15-16.

  NOTE: There is a likelihood of under-reporting in this category and the actual incidence may be higher than suggested by these figures.
- 54% (as compared to 45% in FY 15-16) of juveniles come from families with criminal history/on active court supervision or gang involved.

Elevated Needs Concerns: Peer Relationship Problems, Lack of positive peers, Alcohol/Substance Use/Abuse; Behavioral and Emotional Problems (Mental Health needs), Domestic Discord/Violence; Parents/Guardians with marginal to parenting skills, family members with

records of a criminal history/on active court supervision or gang involved, and Behavioral Problems at school.

- North Hills Transitional Living Program (Females) available to all counties statewide
- WestCare Residential (Girls) available to all counties statewide
- Dillon Crisis and Assessment Center available to central and eastern counties
- Chatham County Recreation Services
- Boy Scouts
- Girl Scouts

# Part IV. Gaps and Barriers in the Community Continuum of Services

- Transportation is a major problem for many families.
- Families typically have few extra dollars to pay for services or extracurricular activities.
- There are a limited number of private providers for mental health services for youth within the county but services can still be accessed.

- Substance abuse services (education, prevention, treatment and assessments) for adolescents are difficult to access.
- Limited community alternatives to suspension for the high school and middle school.
- Spanish speaking providers for youth/family programming.
- Juvenile Structured Day programming for short-term suspended youth.
- Clinical Day Treatment programs are a need in the county.
- Substance Abuse Treatment, Assessment and Residential Treatment programming is a need.
- Sex Offender Treatment and Assessment programming is needed.

# Part V. Proposed Priority Services for Funding

The committee compared the services needed to address the elevated Juvenile Risk Factors and Juvenile Needs with services currently available in the community. Services which are currently available in the community and sufficient to meet the needs of court involved youth or those youth most at risk for court involvement are not considered as a priority for JCPC funding.

The Chatham County Risk and Needs Assessment Committee recommends to the JCPC for the following services, in ranked order, be approved as the funding priorities for FY 2018-2019:

<u>Community Service/Restitution</u>: Provides opportunities for juvenile offender between the ages of 10 and 17, to be accountable for their actions to the community and/or victim(s) through forms of payments or community service work that earns money to repay the victim(s).

Family Advocacy: Works with adjudicated, intake diverted and & at risk; youth with mental health and substance abuse concerns to reduce recidivism and improve their ability to live healthy and productive lives. Program assists youth to reduce their problem behaviors by teaching them accountability and awareness of the consequences of their behaviors along with assisting parents with parenting skills connecting with services needed by their children.

<u>Teen Court</u>: An alternative to court program for middle and high school students based upon the principals of Restorative Justice. First time offenders are tried and sentenced by a jury of their peers. Fellow students take the roles of defense attorney, prosecutor, clerk of court, bailiff, or juror. Local attorneys serve as Teen Court judges. Offenders are sentenced to complete community service hours, write letters of apology, attend seminars and perform jury duties on future Teen Court cases.

El Futuro Clinical Program: Offers counseling for at-risk and/or delinquent Latino youth, ages 6-17 while providing support for parents. At-risk and/or delinquent youth will be linked with a caring, bilingual counselor to help them improve behavior (misbehavior at school, delinquency, substance use, gang involvement), life skills, and school performance using assessment of presenting symptoms / behaviors and individualized treatment planning for individual and family counseling.

<u>Psychological Assessments</u>: Referrals from juvenile court for youth recommended to receive psychological assessments to assist with treatment/programming needs. Program works with

referred youth and his/her family, the assigned court counselor and contracted psychologist to ensure the successful completion of the psychological assessment.

<u>Wrenn House</u>: A crisis shelter designed to provide a safe environment for runaway, homeless and in-crisis youth. It is open 24 hours/day, 365 days/year. Services are for youth ages 10-17. By offering temporary shelter, it eliminates the need for illegal means of support by homeless and

runaway youth and therefore reduces the rate of juvenile crime. It also serves as an alternative to detention. Services are provided within therapeutic environment while promoting individuality and empowerment.

### FY 18-19 Chatham County Program Descriptions

<u>Community Service/Restitution</u>: Provides opportunities for juvenile offender between the ages of 10 and 17, to be accountable for their actions to the community and/or victim(s) through forms of payments or community service work that earns money to repay the victim(s).

**Family Advocacy**: Works with adjudicated, intake diverted and & at risk; youth with mental health and substance abuse concerns to reduce recidivism and improve their ability to live healthy and productive lives. The FA assists youth to reduce their problem behaviors by teaching them accountability and awareness of the consequences of their behaviors. The FA assists parents with parenting skills connecting with services needed by their children.

<u>Teen Court</u>: An alternative to court program for middle and high school students based upon the principals of Restorative Justice. First time offenders are tried and sentenced by a jury of their peers. Fellow students take the roles of defense attorney, prosecutor, clerk of court, bailiff, or juror. Local attorneys serve as Teen Court judges. Offenders are sentenced to complete community service hours, write letters of apology, attend seminars and perform jury duties on future Teen Court cases.

<u>El Futuro Chatham County Clinical Program</u>: Offers counseling for at-risk and/or delinquent Latino youth, ages 6-17 while providing support for parents. At-risk and/or delinquent youth will be linked with a caring, bilingual counselor to help them improve behavior (misbehavior at school, delinquency, substance use, gang involvement), life skills, and school performance using assessment of presenting symptoms / behaviors and individualized treatment planning for individual and family counseling.

<u>Psychological Assessments</u>: Receives referrals from Chatham County juvenile court for youth recommended to receive psychological assessments. Program works with referred youth and his/her family, the assigned court counselor and contracted psychologist to ensure the successful completion of the psychological assessment, keep all stakeholders informed of progress made from point of referral to point of assessment completion.

<u>Wrenn House</u>: A crisis shelter designed to provide a safe environment for runaway, homeless and in-crisis youth. It is open 24 hours/day, 365 days/year. Services are for youth ages 10-17. By offering temporary shelter, it eliminates the need for illegal means of support by homeless and runaway youth and therefore reduces the rate of juvenile crime. It also serves as an alternative to detention. Services are provided within therapeutic environment while promoting individuality and empowerment.
