9,684

students attended at least one
continuing education course in
2023.

The CCCC Foundation awarded over

\$800,000

in total grants and scholarships to
students in 2023.

CCCC Legislative Priorities for 2024

- (1) **Support for a \$40 million allocation to complete the Moore Center Request.** Your hard work and advocacy for the first \$10.8M investment was so appreciated and it was critical to our ability to begin Phase One of the renovation of the Main Building. We understand that securing the rest of the funding quickly is important to maintain the timeline necessary to meet the unprecedented workforce demands and to ensure that the cost of construction does not rise to unmanageable levels.
- (2) **Support for special legislation for CCCC's Multi Campus Center Funding.** We are asking that the FTE earned at Central Carolina CC's Health Science Centers in Harnett (<3 miles) and Chatham Counties (< 9 miles) shall be included in the FTE calculation for the Harnett Main and Chatham Main multicampus centers, respectively, as approved by the State Board of Community Colleges. The Health Sciences Centers are part of the operations of the Main Campuses and share programmatic and administrative support staff and services. Without such legislation, CCCC will continue to be at risk in the future of losing \$1.2M in funding because of the unique nature of our service area.
- (3) **Support for the NC Propel Community College Budget Formula.** In this North Carolina Community College System-wide proposal, CCCC would **receive \$2.1M more** based on the training we are already providing. This additional funding would have saved us from our current budget shortage. If we are able to add back cut positions in a strategic way, CCCC will be stronger than ever and serving your communities in the impactful way you need us to.
