COMMUNITY
COLLABORATORS

GOALS

2022/
2023

Collected data to guide future professional development for physical education and healthful living staff.

Expanded accountability measures for healthful living instruction.

Collaborated with Chatham Drug Free to support community-wide substance use prevention and awareness.

Processed the 2021 Youth Risk Behavior Survey with support from collaborating agencies.

GOALS

2023/
2024

Develop Alcohol, Tobacco and Other Drug Guidance for healthful living instruction.

Create a long-term professional development plan for physical education & healthful living staff.

Continue to increase accountability around healthful living instruction.

Utilize the School Health Advisory Council as a tool for community engagement.
